KSIS Contact,

Please be advised that KDE has targeted the release of **E.1310.5** to all Kentucky Infinite Campus production and sandbox environments starting **Wednesday, April 10th at 7:00 p.m. (local time)**. You will experience some Campus down time during the update process.

Information about the release is provided in a 25-minute recorded session available online at [LL 2526](#) (E.1310 Release New Features Lunch & Learn – 20130307 1922-1). For assistance with the recording, contact webexicu@infinitecampus.com. Highlights of the release are summarized in the table below.

Please share this information and the attached release notes with individuals in your district or office as appropriate.

	Infinite Campus Release Highlights - E.1310	
	Kentucky Specific Highlights	
2012-13 Safe Schools Extract	Significant enhancements to the Safe Schools Extract meet the requirements of KRS 158.444. The extract is separated into five sub-reports that include the specified law/board violations.	
Optimized Non-Academic Reports	DIS logic for Non-Academic Reports (Dropout, Transition, Retention and Validation) was modified to prevent deadlocks from occurring when generating a report within District Edition of Campus.	
Report Tool/Calendar Rights	Gifted and Talented Report Tool and Calendar Rights are working correctly.	
Special Ed Exit Status	Special Ed Exit Status 03 was renamed from "Certificate of Attainment" to "Alternative High School Diploma."	
CIP Codes	Three CIP Codes were added: 28.0101 / Air Force JROTC, 28.0301 / Army JROTC and 28.0401 / Navy/Marine Corps JROTC.	

IC Core Product Enhancements		
Google Chrome Web Browser Support	The Google Chrome web browser (version 24+) is now officially supported for use with Infinite Campus. Please note that to prevent Forms Data Format files (FDF) from being corrupted, FDFs can no longer be uploaded using Chrome's native PDF plugin. Instead, users should disable Chrome's native PDF plugin, and set the default to Adobe Reader.	
Grade Book (Beta) Update	<ul style="list-style-type: none"> • The Auto-Save feature has been removed and replaced with a Save button. The save button will turn orange in color when there is unsaved data in the Grade Book (Beta). • Additional sort options have been added for Assignments to the Setting area. • Assignments can now be sorted in ascending or descending order. • Assignments can be sorted by sequence first, or by category first. • The Setting and Grade Totals sections are expanded using the blue buttons on the sides of the Save button. • New Section, Term and Task dropdowns have also been added. • Adding a new assignment from the Grade Book (Beta) can now be done using the Add button next to the Task dropdown list. • Posting grades has been moved to a button in the Grade Totals section. • Columns have been added to the In Progress area for Points Earned and Points Possible. • Some score grid alignment issues were corrected. • Updating JavaScript has been automated when a new update is taken so that users will no longer need to clear their browser cache to apply a new update. 	
Message Builder Scheduler	A new tool, Message Builder Scheduler, was added to the Messenger application. The Message Builder Scheduler allows users (with appropriate tool rights) to select a day and time for Campus to send routine messages. This tool uses the message templates created with the Message Builder tool.	

Thank you,

Linda Burton
